CONTENTS

Volume 28, 1961

AMIR-MOÉZ, ALI R. A note on the singular values of the product of two matrices 447

ARTZY, R. Cayley diagrams of binary systems 491

BARRETT, LIDA K. The structure of decomposable snakelike continua 515

BELLMAN, RICHARD AND LEHMAN, R. SHERMAN. Functional equations in the theory of dynamic programming—XII: Complex operators and min-max variation 335

BENEDEK, A. AND PANZONE, R. The spaces L^P, with mixed norm 301

BERNARDI, S. D. Convex, starlike and level curves 57

BING, R. H. A wild surface each of whose arcs is tame 1

BIRTEL, FRANK T. Banach algebras of multipliers 203

BRAMBLE, J. H. AND PAYNE, L. E. On the continuation of solutions of the equations of elasticity by reflection 247

BRAUER, ALFRED. On the characteristic roots of power-positive matrices .. 439

BROWDER, FELIX E. A continuity property for adjoints of closed operators in Banach spaces, and its application to elliptic boundary value problems 157

BUSH, K. A. AND OLKIN, I. Extrema of functions of a real symmetric matrix in terms of eigenvalues 143

CARLITZ, L. A bilinear generating function for the Hermite polynomials .. 531

CARLITZ, L. Some generating functions of Weisner 523

CARLITZ, L. Some operational equations for symmetric polynomials 355

CARLITZ, L. Some orthogonal polynomials related to elliptic functions, II. Arithmetic properties 107

CARLITZ, L. The inverse of certain formulas involving Bessel functions .. 431

CELL, JOHN W. AND HARRINGTON, WALTER J. A set of square-wave functions orthogonal and complete in $L_2(0, 2)$ 393

CELL, JOHN W. AND HARRINGTON, WALTER J. Repeated integrals of the square-wave functions and related sets of orthogonal functions 409

CHU, HSIN. A characterization of integer groups and real groups 125

CHURCH, P. T. AND HEMMINGSEN, E. Light open maps on n-manifolds. II 607

COHEN, ECKFORD. An elementary method in the asymptotic theory of numbers 183

COHEN, ECKFORD. Unitary functions (mod r) 475

COLLINS, H. S. The kernel of a semigroup of measures 387

CONNELL, E. H. On properties of analytic functions 73

DEBRUNNER, HANS. Links of Brunnian type 17

DEVINATZ, A. AND NUSSBAUM, A. E. Real characters of certain semigroups with applications 221

DUDLEY, R. M. Continuity of homomorphisms 587

DUFFIN, R. J. Orthogonal saw-tooth functions 559

FELLER, EDMUND. Factorization and lattice theorems for a bounded principal ideal domain 579

FORGE, AUGUSTE. Dimension preserving compactifications allowing extensions of continuous functions 625

FORT, M. K. JR. AND SEGAL, JACK. Local connectedness of inverse limit spaces 253

GOFFMAN, CASPER, NEUGEBAUER, C. J., AND NISHIURA, T. Density topology and approximate continuity 497

GOSSELIN, RICHARD P. Orthonormal series and density of integers 133

GOULD, H. W. A series transformation for finding convolution identities 193

GOULD, H. W. The q-Stirling numbers of first and second kinds 281

GROPEN, ARTHUR L. Special homeomorphisms in the functional space $\mathcal{C}(X, I_{2n+1})$ 629

HALPERIN, ISRAEL. The unitary dilation of a contraction operator 563

HARRINGTON, WALTER J. AND CELL, JOHN W. A set of square-wave functions orthogonal and complete in $L_2(0, 2)$ 393

HARRINGTON, WALTER J. AND CELL, JOHN W. Repeated integrals of the square-wave functions and related sets of orthogonal functions 409

HARRIS, R. T. JR. The perturbation of group representations 325

HARTMAN, PHILIP. The existence of large or small solutions of linear differential equations 421

HEMMINGSEN, E. AND CHURCH, P. T. Light open maps on n-manifolds. II 607

HIRSCHMAN, I. I. JR. Multiplier transformations, II 45

HOULE, J. E. Finite groups of quaternion matrices 383

HUNTER, R. P. Certain homomorphisms of compact connected semigroups 83

JURKAT, W. B. AND LORENTZ, G. G. Uniform approximation by polynomials with positive coefficients 463

KASRIEL, ROBERT H. Stability of certain quasi-open mappings 595

LEES, M. AND PROTTER, M. H. Unique continuation for parabolic differential equations and inequalities 369

LEHMAN, R. SHERMAN AND BELLMAN, RICHARD. Functional equations in the theory of dynamic programming—XII: Complex operators and min-max variation 335

LEVINE, JACK. Coefficient identities derived from expansions of elementary symmetric function products in terms of power sums 89

LEVINSON, N. Transformation of an analytic function of several variables to a canonical form 345

LONG, PAUL E. Properties of certain non-continuous transformations 639

LORENTZ, G. G. AND JURKAT, W. B. Uniform approximation by polynomials with positive coefficients 463

MCCARTHY, P. J. A factorization property of certain Legendre polynomials 487

MCCOART, R. F. Irreducibility of certain classes of Legendre polynomials 239

MARTIN, N. F. G. Generalized condensation points 507

MARTIN, N. F. G. Quasi-continuous functions on product spaces 39

NEUGEBAUER, C. J., GOFFMAN, CASPER, AND NISHIURA, T. Density topology and approximate continuity 497

NEUWIRTH, LEE. A note on torus knots and links determined by their groups 545

NISHIURA, T., GOFFMAN, CASPER, AND NEUGEBAUER, C. J. Density topology and approximate continuity 497

NUSSBAUM, A. E. AND DEVINATZ, A. Real characters of certain semigroups with applications 221

OLKIN, I. AND BUSH, K. A. Extrema of functions of a real symmetric matrix in terms of eigenvalues 143

PANZONE, R. AND BENEDEK, A. The spaces L^P, with mixed norm 301

PAYNE, L. E. AND BRAMBLE, J. H. On the continuation of solutions of the equations of elasticity by reflection 247

PROTTER, M. H. AND LEES, M. Unique continuation for parabolic differential equations and inequalities 369

RINEHART, R. F. Intrinsic functions on matrices 291

ROBERTS, J. H. A problem of Treybig concerning separable spaces 153

ROBERTS, J. H. Contractibility in spaces of homeomorphisms 213

RUDIN, WALTER. Permutations of Taylor coefficients of bounded functions 537

SABIDUSSI, GERT. The lexicographic product of graphs 573

SEGAL, JACK and FORT, M. K. JR. Local connectedness of inverse limit spaces 253

STEVENS, HARLAN. Generalized Kummer congruences for products of sequences 25

STEVENS, HARLAN. Generalized Kummer congruences for the products of sequences. Applications 261

TAAM, C. T. Recurrent properties of conservative measurable transformations 277

TROTTER, H. F. Periodic automorphisms of groups and knots 553

VARMA, A. K. Some interpolatory properties of Tchebycheff polynomials, (0, 1, 3) case 449

ERRATA 647
